CLIMATE BEST BY GOVERNMENT TEST

10 PAGES

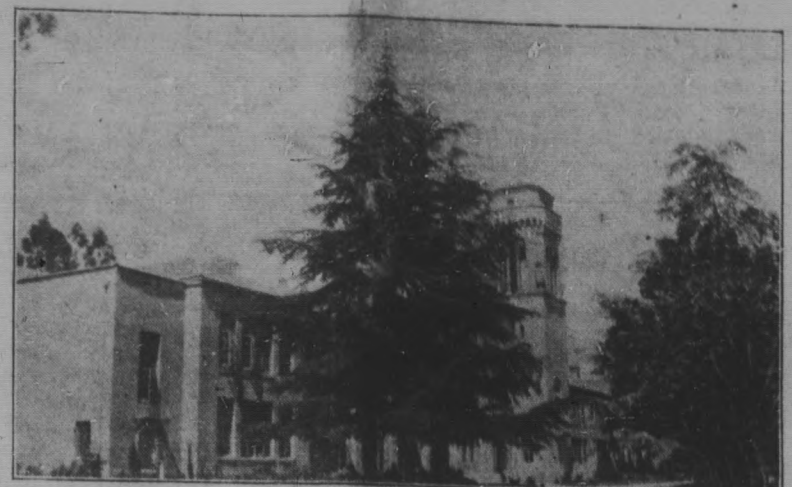

VOLUME LXVIII., NUMBER 43.

REDWOOD CITY, SAN MATEO COUNTY, CALIFORNIA, FEBRUARY 3, 1928.

ESTABLISHED IN 1859.

KEEP SEQUOIA HIGH SCHOOL AHEAD -- VOTE YES

Need of Enlargement at School

Above is a view of the present main building as it appears from the entrance drive. The proposed additions will in no way alter the front appearance of the school, said by many to be the most beautiful in the state.

The last bond issue of the Sequoia Union High School was passed by a vote of 19 to 1. Let us duplicate the record or even better it. Prominent citizens have said that a large majority vote for school improvements is one of the best adds a community may have. The following are facts to be considered.

The school built to house 600 pupils now houses 800. Four teachers are without rooms. Next year 7 to 8 teachers will be without rooms.

There are two bond proposals. Citizens may vote for either one or for both. The first proposal is for \$250,000 to increase capacity of school to 1500 pupils. This will cost the taxpayers about 17c on the \$100. If a person is paying \$40 in taxes the increase would be \$1.12.

The second proposal is for \$50,000. This is to be used to purchase an additional site. Within 5 to 7 years the school will have enrollment of 1500 pupils. At that time a new school must be built. A secondary school should not be larger than 1500 as pupils cannot receive the required individual attention. It should be located near some center of population other than Redwood City. It is advisable to buy a big site.

cause acreage is to be had and prices are much lower than they will be in the future. This bond proposal if passed will cost the taxpayers who are paying \$40, about 20c a year additional.

The polls are open from 8:00 a. m. to 8:00 p. m. on Tuesday, Feb. 7 in the old Intermediate school on Broadway, near the court house, Redwood City. People registering in 1926-1927 or this year up to January 7, are allowed to vote. Voters call the following places to get conveyance to the polls.

Belmont--Belmont Garage, Mr. Curtis, manager, telephone Belmont 6.

San Carlos--J. W. Rutherford, telephone San Carlos 352.

Ravenswood--A. Tower, telephone Palo Alto 849-J.

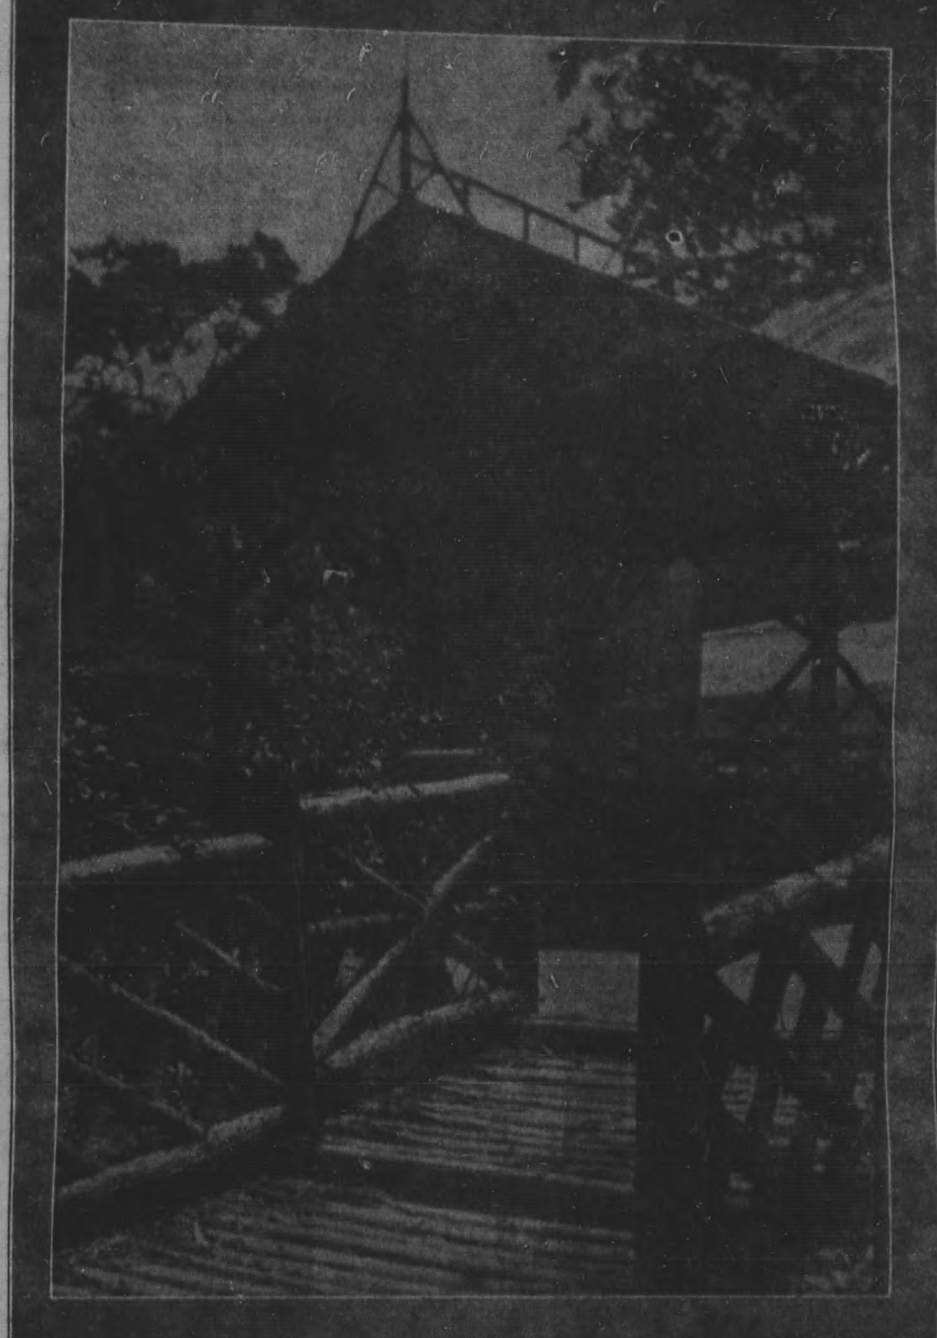

Menlo Park--Eastland Britton, telephone Menlo Park 2003.

Windsor--Neuman Brothers, telephone Redwood 102.

Redwood City--Victor Hildebrand, telephone Redwood 1194; A. M. Donnelly, telephone Redwood 871.

If in doubt about means of transportation or desires information about the election, call Redwood 165.

Vote and get your neighbors to vote.

Woodside Summer Home Entered by Thieves

Property in excess of \$500 was taken by prowlers who broke in on the summer home of Paul Barrett at San Francisco at Woodside last week, according to a report by Sheriff McLaughlin. The chief loss reported was a valuable radio. An electric perculator was taken. The thieves secured entrance by means of a rear window from which they had cut the glass.

LOGAN REPORTS AUTO INCREASE

Auto registration in this county has shown a decided increase this year according to Captain James Logan of this county's traffic squad. Registration fees taken in by Captain Logan's office totaled more than \$12,000. Registration money is still being collected although the last day for renewal of licenses was on Tuesday, and a penalty of 100% is now being charged.

Captain Logan stated that a large percentage of the money taken in by his office is for cars which were formerly registered in other counties. Many men living here with offices in San Francisco, have been registering their cars from their business offices. Others living near the borders of the county and receiving their mail from towns across the county line have been using their post office address instead of their home address. Both these practices have resulted in a loss in road money to the county, as 40% of the registration fees are returned to the county for road purposes.

The total registration for the county will not be available for several weeks as many have secured plates from the San Francisco branch of the State Motor Vehicle Department, from Sacramento office or through automobile clubs. These figures when available will be in addition to the fees collected at the office of Captain Logan.

Damage Suit Filed Following Man's Death

The death of Job Hatfield who was killed in an automobile wreck at San Bruno on December 14, was made the cause of a \$5000 damage suit filed here this week by P. M. Shoaf, administrator of the estate of Hatfield. Shoaf is filing the suit in behalf of Mrs. Nellie Hatfield, the widow and of Fred Hatfield and Mrs. Alice Wight, son and daughter, respectively of the deceased. The defendant in the action is Karl Kunzie, who is alleged to have driven his car in a reckless manner and at an excessive rate of speed.

Davis Appeals Decision In Redistricting Suit

Judge J. F. Davis has begun his appeal to the higher court from the decision of Judge Welch in the case of J. Peterson against the board of supervisors. The suit was brought by Peterson to compel the supervisors to redistrict the county, the court holding that the board had no jurisdiction, at least it could not be compelled to do so. The transcript of the case is now being prepared.

Open Gas Valve Causes Woman's Death

When Mrs. Mary Huber, 70, of 175 Grant avenue, retired for the night Monday, she did not notice that a gas stove in her room was slightly turned on. The gas escaped slowly and was not noticed until the next morning by her daughter, Mrs. J. W. Smith of San Francisco.

Mrs. Smith summoned Dr. H. A. Clattenburg and the fire department. Firemen Al Russell, Lawrence Wood, Bob Bell and Larry Duncan responded with the department's inhalator and every effort was made to revive the aged woman, but without effect. It is believed that she had been dead for some time before the discovery by her daughter. Deputy Coroner John Layng was summoned and took charge of the body.

Mrs. Huber owned property on Grant avenue and often spent her time there, but ordinarily made her home in San Francisco. She was the daughter of Edward Mulen, a pioneer resident of this city. She was born in Redwood City. Surviving the deceased are two daughters, Mrs. Smith and Mrs. George Newmiller, both of San Francisco.

A public card party will be given by the Italian Catholic Federation in the Carmel Men's Council hall Wednesday evening, February 8. Miss Daisy Chiappellone is chairman of the committee in charge of arrangements, and her assistants are Miss Assunta Mangini, Miss Lillian Deluchi and Miss Romilda Mangini.

Committee to Begin Boy Scout Fund Drive

Setting Redwood City's quota at \$1250 and that of the county at \$9,500, the general committee for the county has completed plans for the annual drive for funds to maintain the Boy Scout organization in this county. The campaign to raise the amount required will begin Monday.

The Boy Scout movement has always been a popular one in this county, and this fact has made possible the rendering of great service to the boys of the county. A camp is maintained annually near Pescadero, 24 troops are organized in the county and 700 boys of the county are on the membership rolls of the organization.

The funds for maintaining this work are raised annually by popular subscription. In order to assist in this work a number of men of each community are organized into committees to carry on the work of the campaign.

The general campaign committee for the county is composed of the following: Bruce S. Gibson, chairman; Jas. D. Hedge, John D. Bromfield, Dr. E. K. Sisson, C. J. Eldridge, G. H. Arthur, Robert G. Hooker, Jr., Dr. F. H. Smith, Eastland Britton, F. H. Thrall, S. D. Merk, P. A. Oliver and Mrs. W. J. Hayes.

The committee for Redwood City is as follows:

Jas. D. Hedge, chairman; Mayor H. Boeger, vice-chairman; Mrs. Amy Holmes, secretary; Hon. Geo. H. Buck, John W. Poole, Dr. W. B. Langston, John E. Layng, Mrs. D. E. Graham, Mrs. Z. T. Thorning, M. E. Ryan, C. L. Collins, A. C. Argo, John Gill, E. B. Hinman, Mrs. Willis Frost, Frank W. Thompson, Edward T. Harrison, Carl Wagner and B. L. Werder.

A certificate from the National Dairy Association has been awarded to the Occidental Dairy on Semler road for the high butter fat content of the milk produced. This certificate shows that a herd of 19 cows produced an average of 310.5 pounds of butter fat during the year. The Occidental Dairy is conducted by Joseph Britschgi.

The Smack Beverage Company, H. E. Moss, president, has taken over the big amusement quarters at San Carlos and will conduct a large restaurant and rent the booths to other concessionaries. A. M. Donnelly, real estate company of this city, has the leasing of these booths.

Local Man Faces Hit-Run Charges

Charges of failure to render aid or stop after his car had struck another machine are faced by Gustaf Bergalt, a carpenter of this city. Information charging the local man with neglecting to stop was filed by District Attorney Swart Wednesday.

The accident occurred last month in San Mateo and resulted in the injury of James Arthur, 14-year-old San Mateo boy. Bergalt's number was taken by Mack Fall, 11-year-old boy who saw the accident happen. Bergalt was taken into custody and was given a preliminary hearing before Judge George Kertell of San Mateo.

Judge Hvdner Denies Damages to Munday

Judge Hvdner yesterday denied the petition of John W. Munday against the City of Redwood for a writ of mandate and permitted the plaintiff to recover his court costs. The judge did not go into the matter of damages asked by Munday.

Munday has been granted a permit to erect a building on his property on Broadway. The suit was brought to secure the permit.

FORMER LOCAL MAN RETURNS FROM ALASKA

John Solen, a former pioneer resident of this city and for nearly thirty years a citizen of Fairbanks, Alaska, has returned to San Francisco to spend the remaining years of his life with his son, William Solen, assistant cashier of the Bank of California.

Solen came to the county as a boy from Canada in the latter sixties. He served as deputy sheriff under Sheriff Harry Hatch for two terms. He made an unsuccessful run for the office of sheriff and also for assessor, being defeated for the latter office by the late C. D. Hayward.

Solen was lured to Alaska during the gold rush of 1898. He returned only once since going north and that was in 1907. Solen was a brother-in-law of the late E. F. Fitzpatrick. His oldest daughter, formerly Miss Nellie Solen, was the first deputy postmaster of Palo Alto.

Date Set for Hearing On Charge of Swindling

Judge Percy Jackson of Burlingame has set February 10 as the date for hearing charges of swindling against L. W. Reed, who was arrested in Los Angeles last Friday and brought back to this county. The arrest was made on a warrant sworn to by Mrs. Ella Meyers of Burlingame, who claims that Reed swindled her out of \$1500. Reed is now in jail awaiting the hearing.

WELSH BACKS HARBOR PLAN

Richard J. Welch, member of congress from San Francisco, is working earnestly in congress to secure a bay development plan which would include all the bay frontage from Hunter's point in San Francisco to Ravenswood Point in this county. Welch is looking forward to the formation of a two-county bay development district comprised of the counties of San Francisco and San Mateo. He has now a resolution in congress providing for a survey of the proposed district.

Congressman Welch has asked that resolutions of the San Mateo County Chamber of Commerce and the board of supervisors be forwarded to Washington to assist in the passage of this bill.

MARRIAGE LICENSE GRANTED TO WELL-KNOWN COUPLE

A marriage license has been issued in the office of County Clerk Elizabeth M. Kneese to Oscar A. Comper and Mrs. Juliette C. Hartmanshenn. Both Comper and Mrs. Hartmanshenn are very well known here. The former is a well-known druggist of San Francisco but formerly a resident of this city. Here he learned the drug business from A. D. Walsh. He is a prominent member of the Native Sons.

Mrs. Hartmanshenn is a sister of Mrs. J. D. Hedge and has often visited at the Hedge home here. She is very attractive and has made many friends in this city.

CORROSION IS TOPIC OF EXCHANGE TALK

"My bones are dust; my sword is rust," so sang the shade of a knight of old; and these two dust and rust are the final doom of all material. Speaking from a commercial point of view, rust is a decided liability and is the cause of a loss totaling millions of dollars a year.

The subject of rust was the topic of an address before the members of the Redwood City Exchange Club Tuesday evening by Forest G. Harmon, steel expert of San Francisco.

The meeting this week was held at the University Creamery on Broadway. Carl Eder was chairman of the meeting.

Justin Larrecou, who was sentenced to ninety days in the county jail for the sale of liquor, was paroled this week after having served 36 days of his sentence. Larrecou's parole was granted on the condition that for a year he live out of the county and will not engage in business in this county.

Baby Abandoned; Dies of Starvation

The body of a baby girl of about three months old was found near South San Francisco last Saturday. Deputy Coroner Nori investigated the case and reported that the child had apparently been placed in a box while alive and hidden in a clump of willows. Death had followed from starvation. The child was apparently of Mexican parentage and had been dead about two weeks. An investigation was made and a search for the parents but so far without result.

S. P. Crossing Watchman Dies Suddenly at Home

When Peter Gouverer, 60, a crossing flagman at the Jefferson street crossing of the Southern Pacific tracks, failed to appear for work Monday a search was made, which ended with the finding of his body on the floor of his home at 965 Arguello street. The man had apparently been dead for some time. He had last been seen on Saturday when he left the crossing station at midnight.

The discovery of the dead man was made by Officer S. Douglas and J. W. Moore, another flagman. The funeral was held Wednesday afternoon at 3 o'clock, and was conducted by the local acolyte of Eagles. Services were in the parlors of Layng & Tinney and were followed by interment in Alta Mesa cemetery. The deceased was a member of the Eagles and also of the Odd Fellows.

An inquest held yesterday disclosed the fact that his death was caused by heart trouble.

OFFICERS INSTALLED

Last Monday evening the new officers of General Geo. S. Evans Women's Relief Corps No. 34, were installed by Past President Gerald E. Frisbie. Each member of the Corps invited a guest to be present at the ceremonies.

The officers installed were Mrs. Daisy Barteaux, president; Mrs. Cora Tucker, secretary; Mrs. Josephine Drathman, treasurer, Mrs. Ida Thompson, chaplain; Mrs. Bertha Potts, guard; Mrs. Mary Winter, conductor; Mrs. Matilda McNulty, assistant conductor; Mrs. Augusta Geary, assistant guard; Mrs. Bertha Palmer, patriotic instructor; Mrs. Dollie Jamieson, musician and Mrs. Martha George, press correspondent.

A number of the members of the local corps attended the federation meeting in Los Gatos last week. Among those attending were Mrs. F. E. George, Mrs. A. Weyland, Mrs. A. J. Weiss, Mrs. Carl K. Mable, Mrs. Geraldine Frisbie, Mrs. Anna Collins, Mrs. Daisy Barteaux, Mrs. Josephine Drathman, Mrs. Matilda McNulty, Mrs. Bertha Potts, Mrs. Minnie Kincaid, Mrs. Bertha Palmer and Mrs. E. B. Hinman.

AN INFLUENCE FOR PROGRESS

Depositing regularly with the San Mateo County Savings Bank is a great influence for progress—assuring safety for funds and a steadily growing reserve for emergencies.

New Plane for Captain Wilkins, Arctic Explorer

This photograph shows the completely enclosed plane which Captain Wilkins, noted Australian explorer, will fly in the Arctic regions in the spring. The ship is built to protect the explorer from the subzero weather. Oil heaters will prevent the motor from freezing when it is not running. The plane will be shipped from Los Angeles to Fairbanks, from where Captain Wilkins will fly to Point Barrow, Alaska, and points north.

President Coolidge Greeted by People of Havana

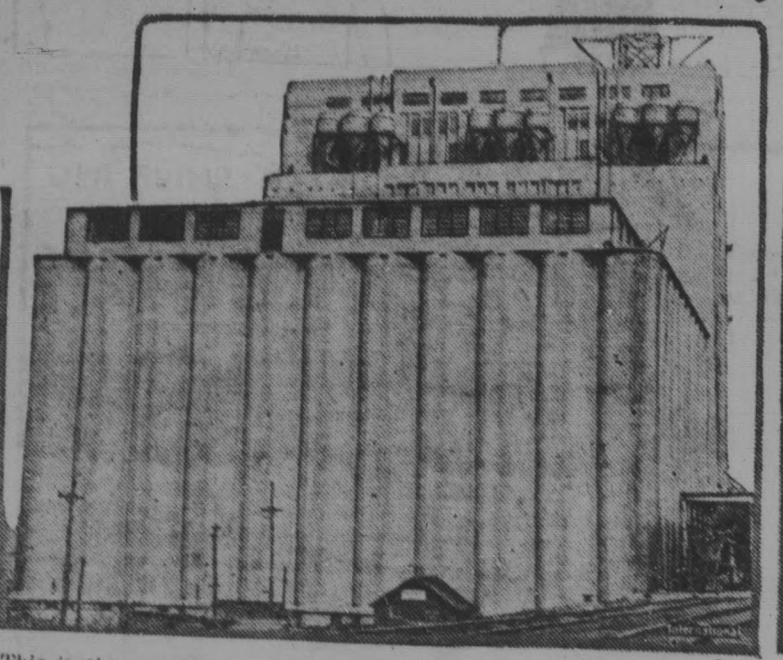

Havana gave President Coolidge a warm welcome when he went there to help open the Pan-American conference. In this photograph, transmitted by wire, he is seen with President Machado of Cuba riding through the streets of the island capital.

Two Lads From the Land of the Nile

Amin and Aly Samy Pasha are the sons of the Egyptian minister and very popular among the younger diplomatic set in Washington.

Handles Eighty Cars of Grain a Day

This is the new grain elevator at Port Richmond, Pa., built at a cost of \$4,000,000 and capable of handling eighty cars of grain a day. The elevator is said to have no equal, and its opening recently was the occasion for a great celebration.

OF INTEREST TO EVERYBODY

Kangaroos are Australia's nickname for its new capital, Canberra. Only two kinds of flowering plants have been found in the high frigid plateau of the Antarctic. The one-armed mayor of Gadsden, Ala., fined a one-legged man for striking a one-eyed policeman. Almost 800,000,000 tons of matter from the United States are swept into the sea by rivers each year.

The new radio station at Angora, Turkey, will soon be put in operation. Germany now has 56 regular air-planes touching 61 cities. High pressure oil wells have just been sunk near Mosul, Iraq. Combs to match cigarette cases are being carried by dappers of England. Statistics indicate that unmarried women vote in larger numbers than married women.

CALIFORNIA NEWS BRIEFS

An increase of 984 in the population of California's penal institutions, schools, homes and hospitals during 1927 was reported last week by the State department of institutions. The population at the end of 1927 was 22,534. A year ago it was 21,550. The gain was principally in the inmates of the prisons and hospitals, although the number of charges cared for at feeble-minded homes likewise gained considerably.

Los Angeles County led the State in marriages during the last twelve months, with 16,875, while Alpine county, boasting but one wedding, came last. With San Francisco second in the State at large and Alameda county third, marriages dropped off somewhat after the so-called "gin-marriage" statute became effective at the end of July. The estimate for 1927 is 53,498, or 12.6 per 1,000 population. This is contrasted with 56,664 weddings during the previous year, when the rate was 13.7.

There were 29.6 suicides per 100,000 population in this State during 1927, according to the State estimate. The statement gave 1,240 suicides for the year just ended and 1,113 for 1926. Available records on deaths from external causes, including homicides, give a total of 4,109 for 1927 and 4,893 for 1926 in California. The estimated rate was 96.8 per 100,000 population for the last year, a marked decrease under the rate of 116.3 for the previous calendar year.

Two State highway and bridge contracts involving over \$33,000 were awarded last week by Bert B. Meek, State director of public works. G. D. Contoulous of San Francisco received an \$11,867 contract for grading three miles of highway east of Jackson, Amador county. A \$21,971 contract went to Paul M. White of Santa Monica for erection of a bridge over Aliso Creek, north of San Juan Capistrano, Orange county, and widening another bridge near Tustin, also in Orange county.

The California quarantine on mussels, ordered last July following 23 cases of mussel poisoning, six of which proved fatal, was lifted by the department of public health in six districts last week, but will remain in full force in all other parts of the State. Dr. Walter M. Dickie, State director of public health, lifted the quarantine on mussels at Candi's Stick Point, Bay Shore, San Mateo county; Coronado Beach, San Diego county; Monterey, Monterey county; Sierra Point, West Berkeley; Wine Haven, Contra Costa county, and Marine Island, Point Richmond, Contra Costa county.

The value of gold, silver, copper, lead and zinc produced at mines in California in 1927, according to the estimate of J. M. Hill of the United States Bureau of Mines, department of commerce at Washington, was \$16,768,560, a decrease of \$3,282,301 or 16 per cent, as compared with the value of metals produced in 1926. There were approximately 200,000 tons of about 2 per cent in gold, 30 per cent in the value of silver, 26 per cent in the value of copper, 73 per cent in the value of zinc produced as compared with the previous year.

Larceny is the most prevalent crime among California law-breakers, and burglary and forgery come next, if extradition records for the last year, made public at Sacramento last week, can be taken as a criterion of conditions. Out of 185 requests for extradition made on other states by Governor C. C. Young during 1927, forty-one cases involved larceny, according to Keith Carlin, the Governor's executive secretary. Next on the list were 22 burglary cases and 21 complaints involving forgeries. There were also 21 bank check cases. Carlin reported that robbery and embezzlement also figured largely in the extradition cases and that fourteen requests were made for return of alleged California murderers.

One of the most important announcements in the Grass Valley mining district for several years is that of the discovery of an eight to twelve foot ledge in virtually virgin ground in the Idaho-Maryland Mine. Errol MacBoyle, president of the present Idaho-Maryland Company, confirmed the discovery in a statement and declared his belief that it marked a new epoch for this historic property which has produced from \$23,000,000 to \$25,000,000. The ledge carries free gold and excellent values in milling ore. Many high-grade specimens have been recovered, but no bonanza deposits have been found so far in the explorations, which are still limited. The studies of MacBoyle, Crase and other engineers indicate that it reaches the surface through virgin ground, thus affording a very large mining area.

The Telephone and Telegraph Division of the Railroad Commission has just completed another busy year of active supervision and regulation of the 141 utilities in the telephone, telegraph, or telephone and telegraph business in the state of California. At the present time, there are approximately 1,098,000 connected telephone stations in California, an increase of more than six per cent over the number in service as of December 31, 1926. California has the largest ratio of telephones per capita of population in the United States.

Spelling will not be listed among the so-called "lost arts" of the country, especially in California, if Ellis Franklin, Colfax, director of educational work at the California State Fair can prevent it. Franklin now is taking steps to interest all California school children and their elders in the State Fair spelling contests for which handsome cash prizes and medals are being offered. The winners of each of the school groups are to receive prizes of \$200 and a gold medal for first place, \$100 and a silver medal for second place and \$50 and a bronze medal for third place.

Washing gravel estimated worth \$10 a ton has begun at the Vallecito Western mine, near Angels Camp, on an ancient river channel. The gravel is exceptionally rich, as \$10 is considered a satisfactory value to the ton.

The new California law advancing the age of majority for girls from 18 to 21 years, effective last July, is not retroactive. Attorney General U. S. Webb ruled last week in an opinion to Mrs. Anna L. Saylor, state director of social welfare. The attorney general said there "is no question that the girl who reaches the age of 18 prior to July 28, 1927, has attained her majority."

Ground has been broken for the new \$300,000 Animal Science Building at the College of Agriculture, University of California, at Davis. The plans now call for the addition of a new wing, made possible by the low bid submitted by the contractor, K. E. Parker Company.

The extent of drunken driving on California highways was indicated last week when the State division of motor vehicles announced that 292 out of 502 revocations of operators and chauffeurs licenses during 1927 involved cases where automobiles were driven by intoxicated persons. The 502 cases cited by the State division include all violations of the motor vehicle act or cancelled during the last twelve months.

Money appropriated by the legislature for specific purposes in the department of education cannot be consolidated into a general fund, to be disbursed along other lines, according to an opinion rendered to William John Cooper, head of the department by Attorney General U. S. Webb. The question came up in connection with an appropriation of \$114,140 included in the 1927 budget for the support of the State Board of Education.

The Disabled Veterans of the World War, department of California, last week filed incorporation papers with the Secretary of State as a non-profit organization with headquarters in San Francisco. The papers were submitted by Richard C. Queen, Fred Schmidt and James Forrest of San Francisco, and Arthur Shepperd, Fresno; Frank McDermott, San Bernardino, and Manfred Bennett, Fall Brook.

Both births and deaths increased in California during 1927, while marriages, under the new three-day wedding notice law, showed a decrease, according to the official estimate of the State Department of Public Health announced last week by L. E. Ross, chief of the bureau of vital statistics. Doctor Stork delivered 84,400 babies in California during the last twelve months, as compared with 82,372 in 1926. Ross estimated, though the birth rate remained at 19.9 per 1,000 population. On this basis the California baby crop for 1927 amounted to approximately 253 1-5 tons. Deaths were placed at 62,200 for the year, or 14.7 per 1,000 population. In 1926 there were 58,742 deaths and the rate was 14.2.

A preliminary investigation of California's newest potential volcano—Glass mountain in the Modoc lava beds, Modoc county, has just been made by R. H. Finch, director of the Lassen Volcano Observatory, and George L. Collins of the National Park Service. Reports had come in from the forest service rangers of the Modoc National Forest that an area of Glass mountain had been discovered where vents were steaming copiously and emitting strong odors of sulphur. Glass mountain, which is considered a part of the Lassen volcano unit, is a peak 7,850 feet high and lies about seventy-five miles north of Mt. Lassen.

By refusing to accept \$150,000 offered to him by the Bancitaly Corporation and making a gift of it to the University of California, A. P. Giannini, founder of the Bank of Italy, has put theory into practice. He believes in a wider distribution of wealth. The gift will be known as the Giannini Foundation, President W. W. Campbell of the university announced. One-third of the amount will be used to complete the agricultural unit of buildings of the campus by the erection of Giannini Hall. On account of the banker's deep interest in agricultural problems, all activities of the foundation will be embraced in the field of agricultural economics.

Expressing belief that the California unemployment situation can be materially remedied by increased highway construction activities, the State administration last week announced that new road building and maintenance projects involving approximately \$13,000,000 will be placed under contract within the next six months. The announcement was made by Bert B. Meek, State director of public works as the result of a conference with Governor C. C. Young on steps to provide early employment for California laborers. New construction enterprises to be placed under contract between now and June will entail expenditure of about \$6,000,000, Meek said.

Patrolling of the State highways in anything but motorcycles will be a thing of the past as soon as the dry weather comes, according to the announcement made at Sacramento by Frank G. Snook, chief of the State Division of Motor Vehicles. Snook declared that experience has shown the motorcycle is vastly superior to the automobile for patrol purposes. Not only has it greater speed, he said, but when a traffic officer is pursuing a speeder in an automobile, he becomes as great a menace to life and limb as the speeder himself.

The California State Railroad Commission approved the suggestion of several cities of the State and the California League of Municipalities that a bill be introduced in congress directing the interstate commerce commission to conduct an investigation into rates and policies of the American Telephone and Telegraph Company. The proposed bill also would investigate the relations of the company with its subsidiaries, including Pacific Telephone and Telegraph and the Western Electric Company. The latter manufactures equipment for the telephone company.

FOR B. & O. TERMINAL

Drawing of the new 52-story Chalmers office building in New York on the ground floor of which will be located the Baltimore & Ohio passenger terminal. This building is being erected opposite the Grand Central station.

WON THE CONVENTION

Jesse H. Jones of Texas, member of the finance committee of the Democratic national committee, whose arguments, financial and otherwise, won for Houston the Democratic national convention.

Back to the Grind

After writing a fervent letter to a girl he called Bessie, the returned vaudeville comedian remarked: "I hope her name is Bessie. If it isn't that letter is gone to be a total loss."—Louisville Courier-Journal.

More Than One Source

From 12,000 to 15,000 elephants are killed annually to keep the world in ivory. Folks who thought ball players had something to do with the supply are mistaken.

MICKIE, THE PRINTER'S DEVIL

By Charles Sughro

ANOTHER ISSUE GONE TO PRESS. LOTS OF NEWS. "JAMES DIPP DIES" WAS A GOOD FELLOW, BUT THE BOOZE FINALLY GOT HIM TOO YOUNG TO DIE. "OSCAR GARTH WEDS" - THE LAZY PUP WILL FIND OUT WHAT WORK MEANS, UNLESS HIS DAD WILL SUPPORT BOTH. "HAROLD TETWELL ACCEPTS RESPONSIBLE POSITION IN NEW YORK" - HIS MOTHER HANDED THAT IN - BIG WAHOO EVERY TIME HAROLD GETS CANNED AND THEN FINDS A NEW JOB: HE'S PULLER-IN FOR A BOWERY CLOTHING STORE.

BIG WRITE-UP FOR THE HOME-TALENT SHOW. "THE ENTIRE CAST DISPLAYED MARKED HISTORICAL ABILITY, WORKING OF A LARGER PROFESSIONAL FIELD. MAY I BE FORGIVEN FOR THAT LIE, FOR THEY WERE PUNK." "RUFUS BLUFF HAS A NEW WONDER 'B' SEDAN" - IF HE PAID HIS BILLS, HE WOULDN'T BE ABLE TO BUY A WHEELBARROW. "J. K. BLOOM PROVE TO CHICAGO MONDAY" - AFTER ANOTHER LOAD OF HOOTCH, I SUPPOSE. I DON'T SEE HOW HE GETS BY.

"THE LADIES AID MEETS TOMORROW WITH MRS. TARTER. MUST SEE THAT MY WIFE GOES, AS SHE ALWAYS BRINGS BASKETS OF NEWS FOR THE PAPER." "MRS. A. B. SEE AND LITTLE DAUGHTER HAVE RETURNED FROM A VISIT AT HER OLD HOME." "I'M GLAD 'BILL' HAS BEEN MOPIN' AROUND LIKE HE LOST HIS LAST FRIEND." "FIRM OF 'KATZ & DOUGS' DISSOLVES PARTNERSHIP" - FUNNY ABOUT THOSE GUNS: EACH WAS AFRAID HE DO MORE WORK THAN HIS PARTNER, AND IT BUSTED THE BIZ.

Between the Lines

WHEN FOLKS READ THE OLD HOME PAPER, THEY READ BETWEEN THE LINES, AND MANY OF THESE LITTLE ITEMS THAT LOOK QUITE UNIMPORTANT TAKE ON NEW MEANINGS. EVERY LITTLE ITEM HAS A MEANING. ALL ITS OWN!

Told His Fortune

Fortress (to gloomy youth)—I hope you enjoyed your game with Major Bluff. He's awfully clever at cards. Youth—I should think he is! He started by telling my fortune, and now he's counting it.

A Real Poet

"Agnes has discarded the lover who wrote such beautiful blank verse." "Yes; she has accepted a man who writes beautiful blank checks."—Loudon Th-Bits.

AN EXPLOSION IN ART

trait done in marble—a marble bust. How do you like it? Mrs. Stabb—"It's an explosion, my dear."

Forced

"I don't believe in the obligation of the state to find work for its citizens." "Neither do I, but why are you so strong about it?" "My brother's just got six months' hard labor."—Dublin Opinion.

Wouldn't Merge

First Neighbor—Their marriage seems to be an unhappy one, December married to May, I suppose? Second Ditto—No, indeed, ma'am. It was Labor day married to the day of rest.

Calming His Fears

He—I understand your father said if he found me calling on you again he would kick me into the street. She—I wouldn't worry, dear; father's punting is wretched.

NEW HOW TO PARK

car, eh?" Motorist—"No; I'm a landscape gardener and ought to know how to park."

A Pair of Stares

Pauline—That good looking boy from the boarding house kept smiling at me at the theater last night. Nerry, I call it! Elizabeth—Really? Where was he sitting? Pauline—Oh, just behind me! When in doubt listen to your wife.

The Cleverest

Father—Who is the cleverest boy in your class?
Son—Jens Kristain—he can waggle his ears.—Oslo Vikings.

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene. That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep. Just one warning: It is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

Installation By F. A. U. Lodges

Redwood City Lodge No. 659, F. A. U. and Palo Alto Lodge No. 476, F. A. U. held a joint installation of new officers last Tuesday evening at the home of Mrs. J. Quinn. The officers for the coming year are: F. A. U. Lodge No. 476, Redwood City: president, Agnes J. Quinn; vice-president, Vivian Quinn; secretary, Ellen C. Sherman; treasurer, Mary Commerford; chaplain, Mrs. F. B. Simpson; guide, Maude Page; inner guard, Harry Page; outer guard, Mrs. J. Quinn; trustees, Frank Quinn, Lyna Allen, and Mrs. J. Quinn. F. A. U. Lodge No. 659, Redwood City: president, L. A. DeRosa; vice-president, Mae Headley; secretary, Mary Winter; treasurer, Bertha M. Potts; chaplain, Alice W. McNulty; guide, Pearl Beere; caplain, Lydia Locker; inner guard, Headley; outer guard, Belle Headley; trustees, Harry Potts; and Dolie Jamison.

Young Couple Wed Here

At a quiet wedding last Saturday morning, Miss Claire Kirste became the bride of George Roberts. Only members of the two families and a few friends were present at the ceremony, which was performed by Rev. Father Ryan in the Mount Carmel Catholic church parish house. Miss Ruth Kirste, sister of the bride, was bridesmaid, and Eugene Cerqui acted as best man. Mrs. Roberts is the daughter of Mr. and Mrs. Edward Roberts of San Jose, and is foreman in the plant of the Pratt-Low Preserving Company here. A wedding dinner was served at the home of the bride's mother, after which the young couple left for a honeymoon to be spent in southern California. Upon their return, they will make their home on Birch street.

Woman's Club Holds Interesting Meeting

The Redwood City Women's Club met yesterday afternoon at the clubhouse on Clinton street, for a regular meeting. A directors' meeting was held at one o'clock, followed by a business meeting at two. At 2:45 current events were discussed by the following members: Mrs. Donald Bogie, Science and Invention; Mrs. A. C. Argo, The Woman of Today; and Mrs. Ed Allen, New Books. Following the current events, there was club singing and then Mrs. Roy Hoberger gave a very interesting and instructive talk on "The Use of Color in the Home." The hostesses for the afternoon were Mrs. John W. Munday and Mrs. William J. Dusel. At the next meeting of the club, which will be held on Thursday afternoon, February 16, the members will enjoy a "Kid Costume Jinks," and a luncheon at one o'clock. Those in charge of the jinks are Mrs. G. Chevasus and Mrs. George Hinton. Reservations for the jinks and luncheon should be made with Mrs. Harold Simpson. Mrs. Carl Cassingham is chairman of the study section of the club, which meets on the second and fourth Thursday of the month. Mrs. Charles L. Rider is current events chairman. The money raised by the card party recently given by the garden section of the club, has been used to beautify the grounds around the club house.

Plans Made for Girl Scout Rally

At a meeting of the Redwood City committee held last Thursday evening, plans were made for a Girl Scout rally to be held in the auditorium of the high school on February 25. One of the features of the entertainment will be a film showing the International Camp of Girl Scouts and Guides held at Geneva, Switzerland last August. At this camp, girls of many nationalities were drawn together, in spite of the difference in customs and languages. The Girl Scouts of Redwood City will take part in this rally. There is to be no admission charged. The main purpose of this rally is to introduce Girl Scouting to the public. Miss Alice Phillipson, district director of the Scouts, was present at the committee meeting and tentative plans for a summer camp to be available to all Girl Scouts of the district, were discussed. The members of the Redwood City committee are Mrs. F. S. Woodbridge, chairman; Mrs. W. H. G. Frost, Mrs. L. A. DeRosa, Mrs. A. S. Kallenborn, Mrs. F. W. Haroon, Mrs. T. M. Cole, Mrs. J. F. Cline, Miss Marie Stillson and Miss Anne Burns.

After the meeting of the committee, Miss Catherine Boyle entertained and the members of the Sequoia Girls' Society served tea to those present.

Mr. and Mrs. Albert Michael and family of Brewster street, are enjoying a visit from Charles Michael of Roseville, who is a nephew of Mr. Albert Michael.

Among the Redwood City and San Mateo county people who were among the guests of the snow carnival at Lake Tahoe were Mrs. Adelaide Butts and daughter, Miss Adelaide, and Mr. and Mrs. Robert Rose and Francis Rose of San Mateo.

Dr. and Mrs. Roy G. Labaschotte have as their guest at their home on Brewster street, Roy G. Lamb of Riverside.

Mr. and Mrs. W. A. Crowell are enjoying several weeks' stay at Truckee in the high Sierras.

Mrs. Alice Mansfield of this city left Tuesday to spend several months with her son, Harland Mansfield and family in Los Angeles.

Card Party Planned For School Benefit

A benefit card party will be held Friday evening, February 17, at the Fremont School, Middle and Fremont avenues Menlo Park, at 8:15 p. m. The proceeds of the affair will be used toward purchasing furniture for the rest room of the school. Admission will be thirty-five cents, including tallies and refreshments. Bridge and whist will be played.

Musical Recital at Sequoia Feb. 8th

In the Sequoia Girls' clubroom February 8, Otis M. Carrington, head of the music department at the high school, will give a recital, the proceeds of which will help pay for furnishings for the clubroom. The admission is 25 cents, and the program is sponsored by Club 2, Carol Carrington having charge. Mr. Carrington is to sing two groups of selections. The first will be a cycle of songs, that is, a story told in ten songs, called "Elliland," by Alexander von Fieltz. Ballads will compose the other half of the program.

San Carlos School Starts New Paper

The first issue of the new paper to be published monthly by the pupils in the 8th grade of the San Carlos grammar school was issued last Friday. The paper has been named "Ye Schoole Piper" and has been dedicated to the board of trustees. The publication was started to increase the standards in English and spelling, as well as to furnish instruction to the pupils.

Miss Lillian Pipkin and Miss Elsie Olson, roommates at the College of the Pacific at Stockton, spent last week end with the former's parents, Mr. and Mrs. J. L. Pipkin of Jefferson avenue.

Mr. and Mrs. G. A. Small of Stambaugh street are receiving the congratulations of their friends upon the arrival of their baby girl in the family. Mrs. Small was formerly Miss Elma Hinman. This is the second child in the family.

Miss Eleanor Blanchard, who is a teacher in the Belmont public school, has been confined to her home in this city by illness. Mrs. Huxley is substituting for her at the present time.

About fifty players were present at the whist party given by the Redwood City Promotion Association in the Redwood City Woman's clubhouse on Clinton street, last Thursday evening. There were also a number of people who were unable to play due to the lack of room. The association is planning to have more accommodations at the next party.

Mrs. R. L. Pipkin of Springfield, Missouri, left this week to visit her brother in Hanford.

"THE PATSY" POPULAR COMEDY

A Very Modern Three-Act Play

That popular comedy of Barry Corner "The Patsy" will be offered on the afternoon of February 17 and the night of February 18 in the auditorium of the high school. Mrs. F. S. Woodbridge is coaching this very modern three-act play.

Marie Haurat, well known by followers of dramatics, will be starred as "The Patsy." Marie fits her part to perfection with her bright, pretty face, a likeable and spirited personality.

Patricia Harrington's older sister, Grace, is taller and very beautiful. A headliner in high school dramatics, Desiree Heydenfeldt, will again appear before the footlights as the older sister, Grace. In this role, Desiree is exceedingly proficient in being selfish, cold and petulant, excepting when she has a purpose in being pleasant. She is the "family beauty" and her sister, Patricia, the "family intelligence."

Billy Caldwell, Grace's fiancé, is played by Gilbert Findley. Billy is a wealthy boy, very agreeable, naturally lovable and bright.

George Gleason as Tony Anderson, is the good looking chap with whom Patricia falls very much in love. Tony is the idealistic real estate salesman who also loves the "family beauty," Grace.

"Pop" and "Ma" Harrington play an important part in "The Patsy." Gladys Palmer as "Ma," is peevish and overbearing. She apparently unwary that her unreasonable and petulant behavior is responsible for most of her troubles. "Pop" says, "that's right, put on the old record and start the phonograph," and Gladys certainly can cry!

Al Davies, playing "Pop" Harrington, usually "fixes" things and in his witty chatter causes many of the play's laughs.

Ernest Verder makes an excellent taxi-cab driver. Lucien O'Connell, president of the Alumni, has the role of the Irish Mr. O'Flaherty, who can appreciate a good joke. The part of Sadie Buchanan is being well taken by Sevinne Roussel.

The net proceeds of the play will form a new scholarship for Sequoia Union High School.

County Views Shown In Picture Packets

Containing fifteen attractive views of San Mateo county, five hundred folders have been placed on sale at ten cents each, through the efforts of the Redwood City Chamber of Commerce, San Mateo County Chamber of Commerce and the Sequoia Publicity Department.

Scenes of the Redwood City courthouse, the chrysanthemum fields, Sequoia High School and San Mateo Junior College are included in these packets.

High School NOTES

This afternoon, members of the journalism classes and Miss Schmidt, instructor, are inspecting the mechanical, advertising and editorial department of the San Francisco Chronicle and also of the United Press Service office.

A new senior representative in the person of Orvall Sutton, boys' club president, has been elected to the boys' council to fill the vacancy left by the graduation of Charles Rayer.

"Evening Dress Indispensable," coached by Gladys Anderson, and "The Neighbors," coached by Tom Ambrose, are the two one-act farces to be presented soon in the Little Theatre during the noon hour. These plays are being coached by members of Mrs. Bess Balcomb's dramatics class.

Invitations have been sent out to San Mateo, Palo Alto, Sequoia and other peninsula schools, for a Girls' Peninsula Athletic League Play day scheduled for February 25 at Burlingame High.

The Saturday evening commissions of the present year are entertaining last year's commissioners at a dance in the library.

Arrangements are being made for the Junior dance to be given February 1, at which the Valentine theme will be carried out.

As a result of the semester grades, the Scholarship Society has claimed six and one half per cent of all Sequoians.

Plans are being made for boys' night, February 25, by the boys' club president, Orvall Sutton and Advisor, Mr. Bogle. It is hoped by them that many fathers and sons will attend.

Kiwanis Topic: Credit How to Get and Keep It

Credit, that elusive something which helps out when you need to borrow money from the bank, and which depends not so much on what you have as on how you use what you have, was the topic of an address before the Redwood City Kiwanis Club Wednesday night by George W. Keam, vice-president of the Crocker First National Bank of San Francisco. Keam spoke of the considerations which a bank official must make when a loan is asked. The chairman of the meeting was Donald Williams.

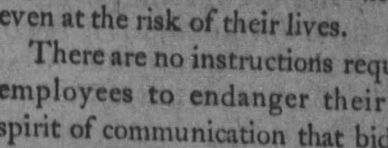

"Get the message through"

IN THE Sixties the "pony express" carried the mail over mountain and Indian wilderness from St. Joseph, Missouri, to San Francisco. The express riders and station keepers won undying fame for getting the message through, regardless of hardship or danger.

In fact and in spirit, the Bell System is the lineal descendant of the pony express. Operators volunteer to remain at their switchboards in the face of fire, flood or other great danger. Linemen go out to repair the lines in time of accident or storm—even at the risk of their lives.

There are no instructions requiring Bell System employees to endanger their lives. It is the spirit of communication that bids them, "Get the message through."

One-twelfth Gone!

Already one-twelfth of the year 1928 has slipped into eternity. What have we done with it while we had it? Have we accomplished one-twelfth of those things which we so firmly resolved we would accomplish before this year was gone? If we will ask ourselves these questions and answer them candidly, it will help materially in making the most of the months that still remain to us. We are sure that in so far as your financial progress is concerned—a large part of the satisfaction you will get out of the answers will depend upon whether or not you have bought all of your foods at Safeway Stores.

Use Seaplanes to Save Lives

The corps of life guards at Santa Catalina Island, Calif., is the first in the United States to make practical use of aerial transportation in the work of patrolling the beaches and rushing aid to persons and vessels in distress. The guards fly their plane to the aid of persons in distress, drop life preservers near them, and then alight on the water to take them aboard.

Woman's Fine Work

Beliz, Portugal.—A broken-hearted mother is responsible for bringing an entirely new industry to this remote village of the Douro province. Four years ago the young wife of a well-to-do farmer here lost her only child. To take her thoughts away from her grief she took up carpet-making. Her nimble fingers worked so fast in their race to keep ahead of her sad thoughts that she became quite proficient and finally took on

six apprentices to aid in production. The carpets they produced were so successful that the industry expanded and their little home workshop has become a factory with 800 women employees, besides scores of others employed in minor jobs and training for admission in a second factory which will open soon. The harmonious, delicate coloring and the intricate patterns of the Beliz carpets already have made them well known in other countries. The wool used in their fabrication is obtained from the flocks of the Portuguese Serras. All raw material employed is Portuguese, so that the in-

ROYAL ENGAGEMENT

Miss Setsu Matsudaira, eldest daughter of Ambassador Matsudaira, Japanese envoy to the United States, and Prince Chichibu, brother of the emperor of Japan, whose engagement has been announced in Tokyo.

COACH TO COACHES

A football and basket ball coaching school will be conducted at Elkins, W. Va., next August by Dr. Clarence W. Spears, football coach at the University of Minnesota, and Club Henderson, coach of athletics at Davis and Elkins college, Jennings Randolph, athletic director at Davis and

Elkins, has announced. Doctor Spears will have charge of football instruction, and basket ball classes will be instructed by Henderson.

Life in South Seas

London.—Housekeeping in the South Sea Islands requires a great deal of planning and energy, says Lady Hastings, who has just returned from the island of Torrea, where she went two years ago as a bride. The day begins at six o'clock, with breakfast at seven. She is the daughter of an Italian baron, and when she settled down in a kitchen where had never been a kitchen before, she found a few more at a time. Her husband, her father, the earl of Huntingdon, ran a plantation there.

Her coral house in the South Seas is so lovely that it might be the "house of the future," said Lady Hastings. "Such a mundane word as 'housekeeping' probably never enters one's mind in connection with it. Yet keep the work on doors."

The Hastings had two Chinese and a Japanese servant. The only difficulty about catering to the Hastings was that the boat crossed from London only twice a week the country had to be planned a week ahead. One boat took the orders and the other delivered them. From civ-

Legion of Honor Is

Expensive to France. Paris.—Every red ribbon of the Legion of Honor costs the French government 500 francs, or \$20, a year.

There are about 120,000 members of the order, so the expense runs above 60,000,000 francs. Every member pays for his insignia, but there are archives and records to be kept, a permanent governing body to be maintained and several schools to be operated for children of members.

Pensions are attached to only a small proportion of the honors conferred for distinguished service, and each year there are fewer such awards.

Doesn't Bother Peggy

New York.—Leap year makes no difference in Peggy Joyce's life, and she thinks it won't in the lives of anybody else.

The Best People

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

WHENEVER anything comes along for adoption or acceptance, and to our own procedure in the matter, our doubts are usually quieted or our courage reinforced by some one's assuring us that "all the best people are doing it," or using it or refraining from using it.

A year or so ago all the best young fellows in town, it was alleged, eschewed garters and went about with their socks hanging untidily over their shoe tops. If you met a young fellow with smooth-gartered hose you became aware at once that, in spite of his attractive appearance, he was second-class; he didn't rate, for all the best people had adopted the other style.

A man called at our house not very long ago with some sort of new-fangled machine for cleaning the cistern, or the furnace, or the chimney. When we hesitated about having the work done by machine and a man with which or whom we had had no previous acquaintance, we were assured at once that all the best people on the West side—which is the acknowledged habitat of the best people in town—were having their work done in that way. We could, of course, hesitate no longer. If the recognized leaders of the social life of the town were having their cisterns purified by a particular process, it behooved us to fall in line at once.

Sometimes one hesitates to ask oneself, "who are the best people, and what determines the superlative in making an estimate of the standing

of a person?" The answer, of course, is that the best people are those who are doing the best things. The carpet industry is bringing prosperity to districts surrounding Beliz. The women who a few years ago worked all day in the fields with their menfolk for a precarious livelihood now live in comfort and spinning the wool for the carpets at the factories, which sell as fast as they are made.

of one's neighbors and acquaintances?" Old Doctor Harwood was an outstanding figure in our community. No matter what the weather was or how deep the mud of the country roads, he never hesitated to respond to a call for help. His old roan horse and his rickety sulky seemed always on the go.

He never collected any bills; if some one insisted on paying him for the service he rendered, he took the money, but that was not as often as it should have been. He was one of the most helpful, willing, unselfish people I have ever known. I am not sure that he would have been considered, at the outset, at least as one of our best people by those who determine such matters.

A friend of mine was telling me of an elaborate social gathering in a neighboring town not long ago—a wedding, or a dance, or a reception, or something of the sort—and all the best people of the town and of the surrounding country were invited and the newspapers said, attended. It was an unusual function. After it was over there was a good deal of gossip as to the goings on. Liquor had flowed freely and some of the

DIPPING INTO SCIENCE

Growth of Cable Service

The first successful cable to be laid was to Calais from Dover, about 1850, by Jacob and John Brett. In 1858 the first cable messages were exchanged between England and America. There are now over 300,000 miles of cable over which messages can be sent at the rate of 100 words a minute.

(© 1928, Western Newspaper Union.)

Inexperienced in these matters—women as well as men—had had more than was consonant with an upright carriage. The vulgarities of it was all excused, however, on the ground that the guests were "our best people."

Tidal Influences

Washington.—"Although the moon is the chief factor in creating tides, the sun also makes itself felt noticeably in pulling up the ocean's waters," says a bulletin from the Washington headquarters of the National Geographic society.

"But the sun is tremendously greater than the moon—more than 27,000,000 times as large; why does it play a subordinate part to the little moon in tide production?"

"Distance is the answer, but it is not the whole answer. If the sun were as close to the earth as the moon is it would pull the earth and its waters some 27,000,000 times as hard as the moon does. But since distance is such a great reducer of gravitation the sun's pull on the earth is roughly only 183 times that of the moon."

"The total pull of a body on another, and its tide-producing force are

feet from an even brighter light, or hold it in the daytime at such a distance from a bright window. You know that there is still a difference in the degree of illumination of the two sides, but it is so very tiny that you cannot detect it."

"The two points on which the sun pulls to make the near tide—the surface of the ocean nearest the moon and the earth's center—are 4,000 miles apart, and this 4,000 miles is a tiny fraction of the earth-moon distance. In the case of the moon this same 4,000 miles is a relatively large fraction of the earth-moon distance—1,000 one hundred thousandths."

"When all the values for distance and mass are inserted in the rather formidable equations for the pulls of the moon at the center of the earth and at the surface, and for the pulls of the sun at these two points, it works out that the difference in the moon's pulls are roughly 2 1/2 times the difference in the sun's pulls. The moon, therefore, exerts 2 1/2 times the tide-producing power exerted by the sun."

"Most of the time the sun and moon are pulling in different directions. But twice each month they pull in the same line. It is then that our coasts have their highest tides. "Theoretically every star and planet and satellite in the universe raises its separate tide in our oceans. Actually, however, even Jupiter, the greatest of our sister planets, is so far away and relatively so small, that its influ-

Shaw's "Double" Is

Soap-Box Orator

London.—George Bernard Shaw has a double who is a soap-box orator.

For some months before Shaw moved from Adelphi terrace to Whitehall court the tall, gray-bearded man who so greatly resembles the famous novelist was frequently seen in the vicinity of Shaw's flat on the Thames embankment. Now he has appeared near Whitehall court, often mounting his street-corner rostrum to address men and women who think they are listening to Bernard Shaw himself.

Lloyd George has several doubles in London, as have even the prince of Wales and Queen Mary.

not the same. The tide on the earth results from the difference between the pulls on the center of the earth and on the near and far sides. These are the pulls that tend to separate the waters and the earth, and therefore to pile the waters up. And it will be seen on close thought that the forces that are considerably different, operating one on the earth and one on the waters, can cause a greater separation than two very strong forces that are nearly equal.

"Light and gravitation act somewhat alike in that each grows weaker as the source of light or gravitational pull is moved farther and farther away, and that both grow weaker very rapidly—in proportion to the distance of the source multiplied by itself. The differences in gravitational pull on which tides depend can be visualized, therefore, by an experiment with light."

"Turn on an electric desk light or other single bulb and hold near it a sheet of ordinary white paper. Hold the paper with one edge toward the light and only two or three inches away and turn it very slightly so that the light shines along the sheet and illuminates its whole surface. There will be a noticeable difference between the brightness of the light at a point near the close edge and at a point near the far edge.

"Now hold the paper in the same way at a distance of ten or twelve

SABLE AND VELVET

A chic coat of black velvet with a sable collar, worn by Audrey Ferris, Warner star.

The coat is close fitting and belted, and the sleeves fit tightly except for a four-inch flare at the bottom. A black velvet hat with a smart feather on the front of the crown completes this smart outfit.

Education Costs More

New York.—College tuition has increased 300 per cent during the last 20 years, said John Price Jones in a report of a survey of 30 privately endowed colleges and universities in the United States.

Long Stretch of Light

Daylight extends from pole to pole at the time of the equinoxes. On account of refraction the sun appears slightly above the horizon at both poles when it is at the equinox.

Record Bell Swinging

Bell ringers at Heptonstall church, near Halifax, achieved a remarkable performance when they rang a record of "Oxford Treble Bob Major," involving 17,824 changes. During the ten hours fifty-one minutes taken by the peal, the bell ringers locked themselves in the belfry and took neither food nor drink. They remained standing the whole time swinging bells weighing seven and eighteen hundredweight, at a rate of over twenty-seven changes a minute. The feat has been honored by the dedication of a "peal tablet" in the church.

If Back Hurts Begin on Salts

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.

Oh! Friends

Marion—What happened while I was away? Any scandal?
Doris—Nothing seems to happen when you're away.

TODAY'S WINNERS

Are you getting "yours," or are bodily infirmities holding you back? The sprightliness of youth, health, strength, success may be yours if you keep your system in order.

SHE WENT FROM BAD TO WORSE

Down to 98 Pounds—Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sick, and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound. I tried it. After taking four bottles, I weighed 116 pounds, and I can do my housework now without one bit of trouble."

—Mrs. M. RIESINGER, 10004 Nelson Ave., Cleveland, Ohio.

If some good fairy should appear, and offer to grant your heart's desire, what would you choose? Wealth? Happiness? Health? That's the best gift. Health is riches that gold cannot buy and surely health is cause enough for happiness.

Lydia E. Pinkham's Vegetable Compound may be the good fairy who offers you better health.

Forest Fires Reduced

Largely due to the development of the airplane protective service, the annual loss by forest fires in northern Ontario has been reduced from \$2,000,000 to \$80,000.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer Manufacture of Monocrocinolide of Ballyhead

Father Sage Says:

If a rich man is stingy, people say he has his generous impulses under perfect control.

MENLO PARK

Council Holds Short Meeting

The town council held a short meeting last Friday evening. L. H. Cook was administered the oath as city judge by the mayor. In response to the mayor as to how much time he intended to give to the duties of his new office, the new official said that he could be available at any time and would give the office his attention and would spend considerable time on the bench.

The license ordinance was taken up and discussed after many amendments it was adopted. In its present form the rates fixed, give general satisfaction. The ailing seal proposition introduced at the last meeting was discarded.

The board before adjournment passed suitable resolutions of condolence regarding the death of George W. Moore. They were ordered sent to the widow of the deceased.

On Tuesday evening the board met in regular session. Heitzel and Harcom were absent.

The council spent much time in considering the traffic ordinance. It was fully discussed and ably explained by city attorney George K. Whitmore. It is a uniform law used by the municipalities of the state and is in book form. It was introduced by reference and will be adopted at the next meeting of the council. It appears to be satisfactory meeting with the approval of the motorists and pedestrians.

The application of M. Covoio for the position of garbage collector was ordered filed.

The contractor who is making additions to the Menlo Park sewer system, communicated with the council in reference to excavation of Fremont street and Oak Grove avenue. He said he did the work neglecting to secure a permit, but would now apply for one. It was said that the sanitary board had required a bond of said contractor for digging up these thoroughfares and that the city attorney thought it was not necessary to require another.

F. J. Funnell sent a letter to the board inquiring about a type writing desk that was ordered by the board from a Palo Alto merchant. He wanted an opportunity to bid on the order as he thought all such orders should be placed with local merchants.

It was explained by the council that the ordering was done by Harcom, with authority from the board to do so and that he would explain further when he was present at the next meeting and so the communication was laid over until the next meeting. Before adjournment Funnell addressed the council on the propriety of buying all goods needed by the city from local merchants. He wanted the clerk to be instructed by the council to rescind the order from the Palo Alto merchant, but the board would not grant the request.

The following bills were ordered paid: Fannie I. Kurtz, \$52.75; H. I. Stratton, \$5.75; O. Youngquist, \$15.

The council adjourned to meet on Tuesday evening, February 7.

Sailed for China This Week
Richard Corneliuson, brother of Elmo Corneliuson, the popular assistant postmaster, has joined the U. S. Marines and will sail for China to participate in the fracas over there. Richard will give a good account of himself in the Orient.

Motif for Many Parties
Miss Florida Paris, a Menlo beauty, is the motif these days for numerous parties and showers. The young lady is to be married just before Easter to Mike Codi, a wealthy steel man of Pittsburgh. After the marriage the couple will reside in Pittsburgh, California. The bride-to-be is a nurse and is very popular with the younger set of the peninsula.

Card Party Feb. 8.
St. Joseph's Alumni will give a card party in the Masonic hall on Wednesday evening, Feb. 8. Good prizes are to be given the winners of the game. The alumni will give a card party the second Wednesday evening of each month in the same hall. These occasions are enjoyable and usually draw a big crowd.

Councilman Resigns
P. H. Crosby, a councilman of Atherton since the town was incorporated several years ago, resigned from the board during the week. The council immediately appointed Charles H. Merrill to fill the vacancy. The selection is an excellent one and the trustees of the enterprising municipality may be commended for the appointment. Next April the term of Mr. Merrill and Mayor Matt Harris will expire. Atherton could do no better than to return these two excellent men to the board.

To Pave Tuscaloosa Avenue
At the last meeting of the board of trustees of Atherton a contract was let to pave Tuscaloosa avenue at a cost of \$15,000. Work is to begin at once.

C. of C. Elect Officers
At a recent meeting of the Menlo Park Chamber of Commerce, the old officers were re-elected and the old board of directors were chosen to act for another year. The chamber is planning a big campaign of activity for the coming year.

Seller Home Sold
J. W. Seller, connected with the police department of Atherton, has sold his beautiful home on Austin avenue, Atherton, to Mrs. Eberhardt of Stockton. It is said the sum of \$25,000 was paid for the attractive home, consisting of

a two-story dwelling and one and a quarter acres of land. The seller owns an adjoining tract of the same acreage on which he is to erect a handsome building.

"Washington" Side-tracked
The special pullman car "Washington" side tracked here all of Sunday for the accommodation of Mrs. Fred Sharon and her daughter, Lady Hesketh and Lord Hesketh of England and a retinue of servants. All departed for the east that evening on their way to England, where Mrs. Sharon will spend the remainder of her days with her daughter, who was formerly Miss Breckenridge, a southern belle. The Sharon estate here is to be closed. It is not known what final disposition will be made of it.

Successful Candidate
At the recent school examination of the Royal Academy and the Royal College of Music held in Douglas, England, the following candidate was successful: Jean Cowley Quayle, Elementary Division, passing with distinction. Jean spent some time here with her aunt, Mrs. E. C. Quayle and last year departed for her home in England. She is a talented and bright youngster and while in Menlo Park made many friends who will be pleased to learn of her success in music.

Apply for Marriage License
John O'Keefe and Mrs. Lucy Ring have applied at San Jose for a marriage license and the pair will soon be wed. O'Keefe came here from Canada three years ago and is engaged in the real estate business. During his young years he was employed by the Canadian government to buy cattle and sheep in the middle west and in New York. He accumulated quite a fortune in this enterprise. The charming and blushing bride-to-be has resided in Menlo Park for some time. In applying for a license, O'Keefe gave his age as 27 and Mrs. Ring acknowledged that she had been sixty-five summers come and go.

N. D. G. W. to Give Card Party
The third of the series of card parties given by the Menlo Park N. D. G. W. will be held on Thursday evening, Feb. 19, instead of Wednesday, due to conflicting dates.

WOODSIDE

This is the first time in many years that red berries have persisted on the toyon bushes until so late a date. Usually they have gone to cheer the little insides of the robin red-breast long before February 1st. But something has delayed the robin's visit this year as the berries are still with us.

Mrs. Floy Ralston, who has been visiting her relatives in the San Joaquin valley since the death of her husband some weeks ago, has returned to Woodside and will resume her teaching at the San Gregorio school.

Miss Iva Dirks completed her work at the Sequoia Union High School a few weeks ago and has registered at the Junior College at Berkeley.

Miss Margaret Stewart who entered the University of Washington last fall, has transferred her attendance and her allegiance to the University of California at Berkeley.

The warm weather following the frosty spell has hastened the advent of spring. The buckeyes and the almonds are bursting into leaf, the acacia trees are becoming a golden mass and the leaf buds on the oak trees are swelled almost to the point of bursting.

Mr. and Mrs. Charles Virden have returned to their home in Portola after two months spent in San Francisco.

Mr. and Mrs. Mortimer Fleisher are at Santa Barbara for a few weeks.

A camp of Girl Scouts was organized at the Woodside School on Wednesday with Mrs. George Givens as leader and Mrs. Albert Meyer as advisor.

Mrs. Joseph L. Ross, Jr., Mrs. F. H. Mighall and Mrs. J. D. Gish were luncheon guests on Thursday of Mrs. Frank Nash at Burlingame.

NOTICE TO CREDITORS
In the Superior Court of the State of California, and for the County of San Mateo.

No. 4415
In the Matter of the Estate of JOHN A. STEEDMAN, also known as J. A. STEEDMAN, deceased.

Notice is hereby given by the undersigned May E. Steedman, Executrix of the last will of John A. Steedman, deceased, to the creditors of and all persons having claims against the said deceased, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, or to exhibit the same, with the necessary vouchers, within four (4) months after the first publication of this notice, to the said Executrix, her residence, Chelmsford Road, Hillsborough, San Mateo P. O., the same being the place for the transaction of the business of said estate in the County of San Mateo, State of California.

Dated this 24th day of February, A. D. 1928.

MAY E. STEEDMAN, Executrix of the last will of John A. Steedman, deceased.

PAUL A. MCCARTHY, Attorney for Executrix, 703 Market St., San Francisco, Calif.
First publication in Times-Gazette February 3, 1928; last publication March 2, 1928.

Michael Buckley

Answers Summons

Michael Buckley, who died last week in this city, was widely known in this section. On and on for thirty-five years he had been employed by the P. J. Foley family and for a time was the caretaker of the Captain Wallace estate on Roosevelt avenue.

Buckley was a native of Ireland and close to eighty years of age. He was better known to the older generation than to the people of the present. He was a quiet character. Many years of his life were passed at Mayfield, where he was closely associated with the late Peter Grimley, who was widely known to the citizens of a generation ago. Grimley was also a peculiar character. Numerous stories of his wit and humor are told wherever old timers are gathered together in recalling memories of the past. Buckley knew Grimley well and in his reminiscence moods could relate story after story about his friend. Grimley was a farmer employing a great number of men. He farmed all the land now covered by the City of Palo Alto and vast fields, part of the Stanford estate. He conducted a hotel and saloon in Mayfield. When Saturday night came the men usually were indebted to Grimley, having imbibed too freely during the week.

NOTICE OF TRUSTEE'S SALE

WHEREAS, C. S. McCONNEY and LILLIAN McCONNEY, his wife, as trustees, heretofore made, executed and delivered that certain deed of trust bearing date the 9th day of August, 1926, to the ANGLICAN TRUST COMPANY, a corporation duly organized and existing under and by virtue of the laws of the State of California, as trustee, for LEONARD & HOLT, a corporation, duly organized and existing under and by virtue of the laws of the State of California, as beneficiary under said deed of trust, which said deed of trust was the first of the County Recorder of San Mateo County, State of California, in Volume 244 of Official Records, at page 453, to secure the payment of a certain promissory note of even date with said deed of trust made, executed and delivered by the said C. S. McCONNEY and LILLIAN McCONNEY, his wife, to the said LEONARD & HOLT, a corporation, according to the terms thereof; and

WHEREAS, the said LEONARD & HOLT, a corporation, the beneficiary named in said deed of trust, did hereby, in and by virtue of the deed of trust, give notice of the sale of the property described in the deed of trust, to the said C. S. McCONNEY and LILLIAN McCONNEY, his wife, and of the election of the said LEONARD & HOLT, a corporation, to sell or cause to be sold the real property described in the deed of trust, and hereinafter described to satisfy the said obligation of the said C. S. McCONNEY and LILLIAN McCONNEY, his wife, to the said LEONARD & HOLT, a corporation, according to the terms thereof; and

WHEREAS, the said C. S. McCONNEY and LILLIAN McCONNEY, his wife, in default of the payment of principal and interest due under said promissory note and under said deed of trust; and

WHEREAS, the said LEONARD & HOLT, a corporation, the beneficiary named in said deed of trust, has exercised its option to consider all the said principal and interest provided for in said note to be due and payable and has recorded its notice of breach and election to sell under said deed of trust, as hereinabove set forth, and hereby gives notice that on Wednesday, the 29th day of February, 1928, at the hour of 2:00 p. m. of said day, at 220 Kearny Street, in the City and County of San Francisco, State of California, said trustee will sell as a whole or in parcels, to the highest bidder, for cash in lawful money of the United States of America, all the following described real property situated in the County of San Mateo, State of California, and more particularly described as follows, to-wit:

A portion of Lots numbered Twenty-one (21) and Twenty-two (22) in Block numbered Seven (7) as shown on that certain map entitled "New High School Acres, Redwood City, California," filed in the office of the County Recorder of San Mateo County, June 25th, 1923 in Book 1 of Maps at Pages 38, 37 and 38, more particularly described as follows, to-wit:

COMMENCING at the most Westerly corner of Lot Two (2), Block Seven (7), as shown on the map hereinabove mentioned; thence along the line common to Lots 1 and 2 in said Block 7 and its subdivision a straight line which subdivides Lot 21, Block 7, N. 44 degrees 38 minutes 40 seconds E. 61.30 feet to a point; thence crossing and subdividing Lots 21 and 2 of said Block 7, S. 44 degrees 38 minutes W. 130.85 feet to the Northeastly line of Quartz street; thence along said line of Quartz street N. 45 degrees 23 minutes W. 61.25 feet to the point of beginning.

TERMS OF SALE: Cash in lawful money of the United States of America, Ten (10%) per cent, payable to the undersigned at the fall of the hammer; balance upon the delivery of deed and if not so paid, then the said ten (10%) per cent to be forfeited and the sale to be void.

DATED: San Francisco, California this 16th day of January, 1928.

(S.E.) ANGLICAN TRUST COMPANY, Trustee.

By C. L. SMITH, Vice-President.

By GRANT CORDEY, Asst. Secretary.

J. H. MORRIS, Attorney for Trustee, 702 Mills Building, San Francisco, California.

First publication in Times-Gazette Feb. 3, 1928; last publication Feb. 24, 1928.

at the Grimley bar.

There was a young man from Kansas, a prohibitionist, employed by Grimley and one Saturday night he sauntered up to the bar for his pay. Grimley looked at him in amazement. "Me Bye" said Grimley, "the whiskey was there for you and if you did not drink it it was your own fault." And calmly walked away.

In the seventies Grimley and Buckley were employed by Alfred Seale, one of the early paving contractors in San Francisco, on

his farm, on which Palo Alto is built. The men were engaged in cutting the tall stalks of wheat surrounded by the trees with the anvil and scythe. The sun's rays were hot. Grimley arranged with his pal Buckley to lay beneath a tree for a nap and to be aroused when the boss showed up. He had been sleeping quite a while when Seale hove in sight. Grimley was warned of the approach of the boss. He jumped up, running to the water pail he dashed the fluid all over his face and

bared breast so that when Seale came up Grimley had the appearance of one wringing with perspiration. "Why my good man," said Seale, "I don't expect you to work so hard." "Faith," replied Grimley, "you are paying me good wages and I want to be loyal to me boss." Seale ordered Grimley to rest for an hour under the shade of the tree and warned him to let up in his efforts. Grimley as Seale rode away, chuckled to himself on putting it over on his boss. Buckley had to continue

his work and watch his pal wringing the "cooling shade from his hot sun."

Buckley could fill books in relating such stories about his friend Grimley. He is the last of a large coterie of men living Grimley's time.
